Summary

I'm a self-taught full-stack developer with over 10 years in technology. My journey began around 2010 and since then, I've continuously evolved and expanded my expertise.

My current focus and tech stack is; JavaScript, TypeScript, Next.js, TailwindCSS, PostgreSQL, Strapi, Supabase, Shopify and Generative AI

Milestones

- 2022: Moved on with Next.js, TypeScript, Strapi, Supabase
- 2021: Embraced React and Meteor for frontend and backend development.
- 2018: Enhanced skills in frontend and UX/UI design using Figma.
- 2015: Worked with PHP (Laravel) and JavaScript SPAs (Angular).
- 2012: Transitioned from ActionScript3 to PHP, HTML, and CSS.
- 2009: Began professional career with ActionScript3 and Adobe Flash.
- 2000: Deployed my first website using Adobe Flash and Dreamweaver.

My career reflects a commitment to staying current with technology and a passion for learning. I'm always open to new challenges and eager to connect with fellow tech enthusiasts.
